Asthma  
Care

# Going for Gold Motivated for Excellence

The Canadian Network for Asthma Care (CNAC), through its certified educators and member organizations, works to improve the quality of life for Canadians and their families living with respiratory disease, by developing, promoting and advocating the highest standards of quality respiratory health care and innovative education.

# WELCOME

As the president of CNAC, I would like to welcome you to ASED 9 in wonderful Whistler, British

Columbia. With the Winter Olympics around the corner and the sheer natural beauty of this place, the meeting organizers thought that Whistler would be the ideal location for this meeting.

The educators on the organizing committee have performed magnificently to plan and coordinate another very promising event. I know you will all agree that the topics and speakers have been selected to forward the knowledge and skills of the educators and other health professionals in attendance.

Thank you for making it to Whistler 2009! I am looking forward to seeing all of you!

Thanks,

**Harold Kim, President**  
Canadian Network for Asthma Care

I am delighted to welcome you to Whistler for ASED 9. The organizing

committee has worked diligently over the past year to develop a first-rate program. Our ASED conference, building on our strong focus of providing quality education in respiratory health, will specifically address asthma, allergies, COPD and tobacco reduction. The tremendous plenary sessions and workshops will inspire all of us to "Go For The Gold" in our programs.

**Margot Underwood, Chair**  
ASED 9 Conference Committee

It is with great excitement that I welcome you to Whistler! The Conference Planning

Committee has done an outstanding job of putting together this year's program. We really want you to be able to return to your workplaces with lots of new ideas and knowledge.

I spend a great deal of my time advocating to stakeholders in the healthcare system about how important the work of asthma and respiratory educators is to the health of Canadians living with respiratory disease. Your commitment to continuous learning is one of the traits I frequently discuss. I would also like to point out that this conference would not be able to take place without the generous support from our Sponsors and Exhibitors. Please make sure you drop by their booths while you are here.

Have a great conference!

**Cheryl Connors, Executive Director**  
Canadian Network for Asthma Care

## Conference Planning Committee

**Margot Underwood,**  
BN, RN, CRE  
ASED 9 Chair  
Calgary, AB

**Cheryl Connors**
